PROFESSIONAL SUMMARY

Mathematics tutor and U.S. Naval Academy graduate (B.S., Mathematics) with 10 years of Navy leadership experience and a Master's in Business Analytics from UC San Diego. I specialize in Precalculus and Calculus I for community college students, and also tutor high school and elementary students. I bring the structure, patience, and mentorship I built training more than 30 officer candidates in the Navy directly into how I teach — breaking concepts down, building confidence, and meeting each student where they are.

CORE SKILLS

- **Teaching & Tutoring:** Precalculus, Calculus I, Algebra, Statistics & Probability, individualized lesson planning, one-on-one and small-group instruction
- **Mentorship & Leadership:** curriculum and training design, officer candidate mentoring, cross-functional team training, performance coaching
- **Quantitative & Technical:** Python (pandas, numpy, scikit-learn), MATLAB, Excel (incl. VBA), statistical modeling, forecasting

EDUCATION & CERTIFICATIONS

- **B.S., Mathematics** — United States Naval Academy (USNA)
- **M.S., Business Analytics** — University of California, San Diego — December 2025
- **M.S., Finance (in progress, expected July 2027)** — Golden Gate University
- **Mobile App Development Certificate** — San Diego Community College

TEACHING & TUTORING EXPERIENCE

Independent Math Tutor — San Diego, CA
January 2026 – Present

- Tutor community college students (ages 18–40) in Precalculus and Calculus I, along with a high school senior and an elementary student, building individualized lesson plans around each student's pace and gaps
- Translate abstract concepts — limits, derivatives, functions, probability — into clear, step-by-step reasoning grounded in a B.S. in Mathematics and graduate-level statistics coursework
- Built a tutoring practice from the ground up after connecting with a first student through a community referral, now balancing multiple students' schedules while completing a second master's degree

PROFESSIONAL EXPERIENCE

United States Navy, Various Locations

Operations Manager
May 2022 – January 2025

- Designed and led a talent development program, mentoring 37 officer candidates through tailored, one-on-one professional development — the same individualized coaching approach I bring to tutoring today
- Managed a division of 32 personnel, overseeing the accuracy and timeliness of 2,000+ transactions; earned 4 promotions and 8 performance awards
- Collaborated across departments to assess training needs and design cross-functional development programs aligned with mission goals and performance metrics

Hospital Corpsman (Medical Assistant)
March 2015 – June 2018

- Assisted 10 doctors across multiple specialties in caring for 3,000+ patients, applying careful, methodical data collection to support real-time clinical decisions
- Maintained accurate patient records and tracked outcomes using structured, consistent documentation practices

APPLIED MATH & ANALYTICS PROJECTS

- **Optimization of Mobile Marketing Campaigns Using Predictive Analytics, Tuango —** built and evaluated a logistic regression model to predict customer response and improve targeting accuracy
- **HMO Levels & Pregnancy Outcomes, UCSD —** analyzed clinical and demographic data to build an interactive pregnancy-risk prediction tool

NOTABLE AWARDS

- Best in Mathematics Award, United States Naval Academy
- Joseph K. Taussig Jr. Leadership Award, United States Naval Academy
- Sailor of the Year Award, United States Navy
